

“Hi I’m
trying to
calculate

the percentage by mass of the
each element present in the
following compounds:

a. MgO b. CaCO₃. Can you help?”

You get 24/7 study help for **free** with your library Member number. In fact, more than 1.6 million students in Australia and around the world have access to Studiosity.

You’ll get *help not answers*, to give you the confidence to keep going on your own.

Choose to get help from a Subject Specialist or even upload a draft for same-day writing feedback.

First, **find Studiosity on the library website.**
